

## **Safety Protocol Update**

If the COVID transmission rate does not exceed 15 per 100,000 in Camden County, these guidelines will remain in effect.

Face masks are optional. If you prefer to wear a mask, please do.

We may now fully exchange the Peace, and the alms basin will be passed among the pews. We are again using the altar rail and will be offering communion with both Christ's Body and Blood.

The consensus of public health studies to date shows that there is no documentable risk of COVID-19 transmission through the common cup.

We understand individuals may have different comfort levels as to how they receive communion. Following the teaching of our Episcopal tradition, all persons may, but no person must, receive communion in both kinds to obtain the full spiritual benefits of the Eucharist. You may choose to receive the Host only at this time.

Should you choose to receive the wine, one vessel will be offered for those who want to sip the wine from the common cup.

Intinction is not an option just yet.

If you prefer not to receive the chalice, simply cross your arms over your chest.
